II. Cloze test (Questions 26-35 ; 20%)

(請依各題上下文，選出一個最適當的答案，每題 2 分。)

One night, a woman woke up from a dream at precisely 9:03 pm. In her dream she saw her father (26) outside a hospital in Glasgow. Two months (27) at exactly 9:03, her father died in the same spot she had seen in her dream. Her dream (28) to be a premonition.

In cultural traditions throughout the world, premonition dreams (29) as real and significant. They were recorded on clay tablets by the ancient Assyrians and Babylonians, and were taken very seriously in classical Egypt, Greece, and Rome. Modern research shows that premonition dreams are more common (30) women than among men. The future events usually (31) people close to the dreamer. And the event (32) in premonition dreams may not occur (33) several weeks after the dream.

Very few scientists, (34), think dreams can truly predict the future. It is illogical, and therefore unscientific, to think that an effect (knowledge of an event) can appear before its cause (the event). Some skeptics say that so-called premonitions are really just inferences or educated guesses about what might happen. Other critics believe that any similarity between a dream and a real-life event is only a (35).

26. (A) dying (B) died (C) die (D) death
